A Trusted Nonprofit for Donor-Advised and Foundation Giving

Since 2012, 4 Paws 4 Life has rescued, treated, and placed thousands of animals—focusing on those coming from overcrowded shelters, local surrenders, and high-risk situations.

Each year, hundreds of thousands of animals face euthanasia due to overcrowded shelter systems and limited resources. Our model is designed to move animals through the full path to adoption: not just intake, but successful placement into homes.

Commitment

**All animals are spayed or neutered prior to adoption – our commitment to ending the homeless pet population*

What We Do

- Rescue & Intake
- Medical Care & Rehabilitation
- Spay & Neuter
- Transport & High-Risk Rescue Partnerships
- Adoption & Placement
- Mission-Driven Boarding (Funding the Rescue)

Why Choose Us

We focus on outcomes. We move animals out of high-risk situations, provide the care they need, and place them into adoptive homes. Funding directly supports each step ; rescue, transport, medical care, and placement – creating a clear connection between each dollar and a completed adoption.

Opportunity

4 Paws 4 Life is a strong fit for donor-advised funds, foundations, and advisors seeking organizations with clear, measurable outcomes and direct use of funds.
